PROFESSIONAL SUMMARY

Dynamic Full Stack Web Developer with proficiency in JavaScript and extensive experience in the MERN stack (MongoDB, Express.js, React.js, Node.js). Demonstrates strong problem-solving abilities and a quick learning aptitude, including Generative AI. Excellent teamwork and communication skills, dedicated to enhancing development processes.

PROJECTS

1. Pandit S.N. Shukla University | ⚙
React | Responsive Web Design | JavaScript | Git

- Redesigned the university's educational website using React and Redux for state management.
- Implemented responsive web design to ensure the site is accessible on all devices.
- Enhanced the 'Enroll' feature allowing students to register for courses online, improving the user experience.
- Utilized Git for version control ensuring collaborative development and code integrity.

2. BigBasket | ⚙
HTML5 | CSS3 | JavaScript | Git | Responsive Web Design

- Developed a responsive and visually appealing user interface using HTML and CSS.
- Implemented product listings displaying grocery items with images, prices, and descriptions.
- Created a functional shopping cart allowing users to add, view, and remove items using JavaScript.
- Conducted testing and debugging to ensure reliability and a seamless user experience.

3. Calculator | ⚙
React | Git | Responsive Web Design

- Designed a clean and responsive user interface using HTML and CSS to enhance user experience.
- Developed the core functionality in JavaScript to handle user inputs and perform arithmetic operations.
- Implemented basic operations such as addition, subtraction, multiplication, and division.
- Ensured the application was fully responsive, providing optimal usability across various devices and screen sizes.
